Dear Mr. Gade;

At their regular meeting on February 15, 2017, Esterhazy Town Council passed the following motion:

55-17. "THAT Council permits CJSB 104.5 to place a radio antenna on top of the water tower and place a small box beneath the water tower for the operation of a radio station providing this does not interfere with the existing telecommunications that operates the wells."

Please do not hesitate to contact us with any questions you may have.

Sincerely,

Judy Parker
